GEM EXPERIENCE

RING SIZE GUIDE

How to determine your ring size

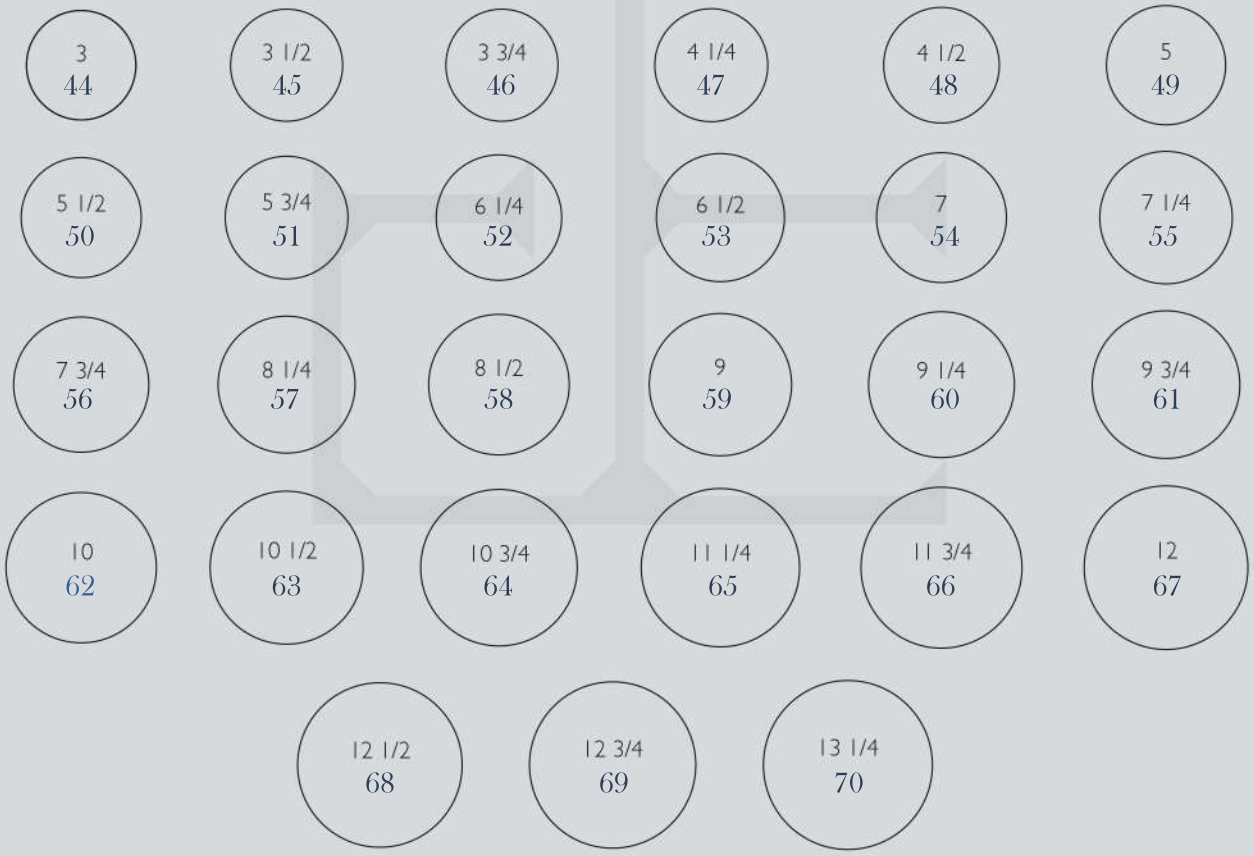

HOW TO PRINT THE GEM EXPERIENCE RULER AND RING SIZER

Before printing the sizing guide, be sure that your printer options are set to print to actual size. Do not scale to fit.

- Print on full sheets of A4 size.
- To verify that the sizing guide has printed correctly, measure the sample below with a ruler. It should measure exactly 1 inch.
- Use this method if you have a ring that perfectly fits the finger on which you would like to wear your Gem experience ring. Find the circle that is the best fit for the inside of your ring: the inside of the band should align with the outer edge of the circle.
- If your ring is between two sizes, we recommend you opt for the larger size.
- When sizing for a Possession ring with a band width of 6 mm and up, if your finger is between two sizes we recommend you opt for the larger size.

*CONVERSION CHART

* This is for reference only. The Gem Experience Ruler is designed for approximate measurements and should not be interpreted as providing your precise ring size
